MEMORANDUM FOR: Director of Training

25X1A

SUBJECT : Agreements to Permit Taking Game [REDACTED]

25X1A

25X1A 1. You have asked this Office for an opinion concerning the propriety of [REDACTED] entering into an agreement with non-Agency personnel for the purpose of taking game from [REDACTED] property. You have indicated a problem exists as a result of illegal entry onto the [REDACTED] by poachers whose main purpose appears to be to rid the area of raccoons.

25X1A

2. It would seem, based on your feeling that the illegal entries will be reduced as a result of permitting a few supervised individuals to take game, that agreements permitting such activity would be appropriate.

25X1A

[REDACTED]  
Although not necessary, you may find it convenient to inform parties to your proposed agreement that they will be expected to obey state game laws.

25X1A

4. Concerning the sample agreement which you have enclosed, it would seem to be legally binding and fairly comprehensive. In drawing up an agreement for [REDACTED] important points to include are:

a. A statement of consideration as contained in paragraph one of the sample. (Though it is not necessary to charge a fee for each raccoon.)

b. A statement similar to the first mentioned in paragraph two, relieving the Government of liability.

- c. A statement that the agreement may be canceled at any time.
- d. As detailed a description as possible of the terms under which game will be taken.

5. If you would like us to review any agreement which you propose for [REDACTED] we would be happy to do so.
